

Cultural & Arts Leaders in Schools and Academies

ConnectED Teaching School Alliance is a lead school for **CALSA** and we work in Partnership with **Festival Bridge**.

We have a number of experienced **Cultural and Arts Leaders** who can be deployed on any project, big or small, to champion and support the development of culture and the arts in all school phases.

We can support projects as diverse as staging a musical, putting on a concert, art exhibition or dance performance, through to helping establish a theatre or drama group, a Culture & Arts Curriculum Day, or a Community Drama & Arts event.

Support with Artsmark applications is also available and development and the introduction of student Arts Awards is also available.

Our approach is to work with staff and children to model the implementation of a project from planning through to realisation.

This approach supports staff in schools to sustain, and to further develop their own project.
